Eviden solutions at customers from medium-sized companies to large corporations - two case studies

MINDSHARE

IDpendant
Secure your identity

Using two very different practical examples, this talk explains how and why IDpendant as a system integrator can help their customers to fulfill modern security requirements and legal regulations with solutions from Eviden.

- Example 1: Mid-Sized Pharmaceutical manufacturer using Evidian SSO Enterprise
- Example 2: Large insurance company using cryptovision SC interface remote plus IDnomic CMS (fka Opentrust CMS)

Example 1:
Evidian SSO Enterprise for Hermes Arzneimittel, Pullach (munich area)

- about 350 employees

- Challenge: Windows tablets in production and shipping

- SSO solution with RFID cards required to ensure easy and secure access to all required applications

Thoughts and conclusions:

- Eviden has a wide range of solutions for different customers with different needs and requirements
- The excellent collaboration between Eviden, IDpendant and the customer is the difference
- Trust solution providers who have been working successfully together in the market for a lonfg time and benefit from their expertise
